Additional Information

Michael W. Young, D.O., Commission Liaison gave a verbal status report of the first discussion workgroup meeting held on May 25, 2006 to the Certificate of Need Commission members on June 21, 2006. He mentioned that six of the seven issues identified during the public hearing had been resolved at the first workgroup meeting. The purpose of the next workgroup meeting is to resolve the remaining issue identified during the public hearing regarding the restriction on number of BMT services for both adult and pediatric services in the State of Michigan and also to review CON standards for BMT services to make sure that it is in par with the current industry standards.
